

LIVING ON A CHANGING COASTLINE

Adapting to predicted sea level rise in Santa Cruz County

Photo credit: Bryce Newbury

A presentation by Ross Clark
Sponsored by the League of Women Voters

Where will our beaches be in 2070?

Rising sea levels and more intense ocean waves are pressing our coastline inland, threatening homes, roads, businesses, infrastructure, and our beloved beaches. As oceans rise, will Santa Cruz County plan carefully for a graceful retreat, or scramble to cope with each disaster as they come?

As Director of the Central Coast Wetlands Group and Climate Action Coordinator for the City of Santa Cruz, Ross Clark has worked on plans to reduce greenhouse gas emissions and helped local municipalities prepare for climate change and sea level rise.

Saturday, March 18, 2017

1:30-to 3:00pm; Doors open at 1:00pm

Free and open to the public

Santa Cruz Museum of Art and History Auditorium
705 Front Street, Santa Cruz, California 95060
